

## Instagram Marketing

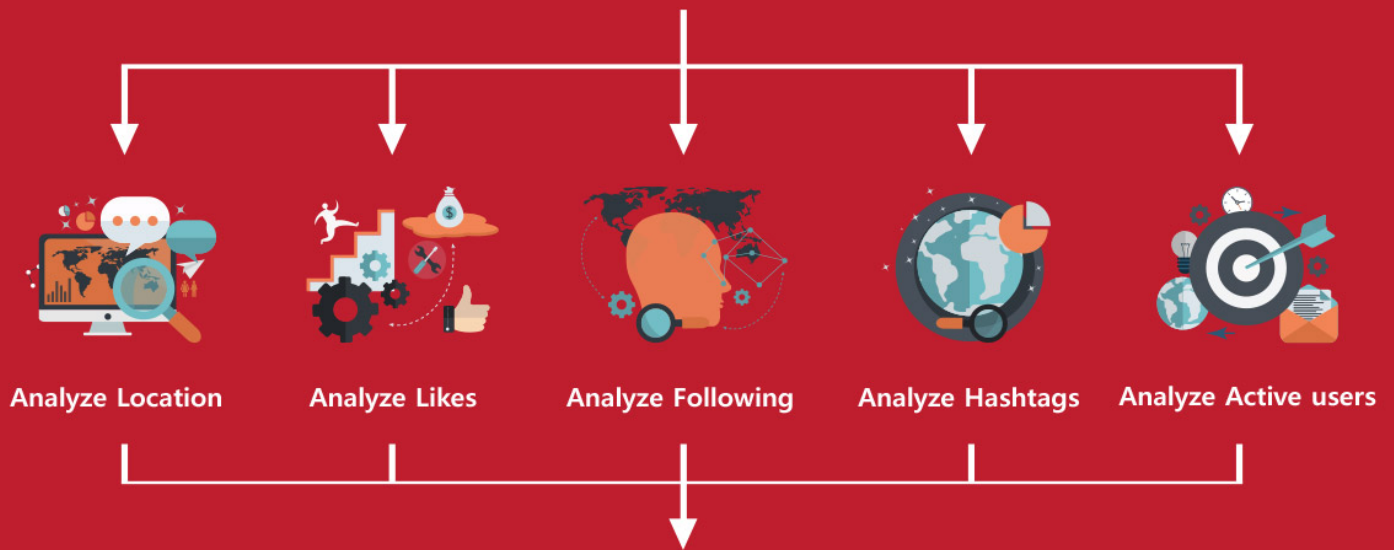

# Start with instamaster!

## What is instamaster?

instamaster® Marketing Inc. offers a cutting-edge Instagram Marketing service called **Target Analyzation System (T.A.S.)**. The proprietary T.A.S. program can target any category niche on Instagram. Once the target market has been identified, our system starts to grow your account organically by interacting with your potential customers 24/7. We also provide **Full range of marketing consulting services** for our clients.

GROW YOUR BUSINESS WITH REAL ENGAGED USERS

---

## What is the advantage of gaining the followers organically with instamaster?

There are many ways of growing your Instagram account. The best way to grow your Instagram follower base is to organically engage with your target audience.

Accounts using this method turn their followers into leads and sales.

---

## How does the instamaster system work?

Our cutting-edge T.A.S. program took 2 years in R&D and was beta tested for more than a year to ensure 100% account security.

T.A.S. can target any interests that you can imagine.

The T.A.S. program analyzes the Influencers, Hashtags, locations, and Likes to create a targeted database. The program filters the active users engaged in your categories of interests. With the filtered and selected users, the program starts to interact 24/7 to maximize the exposure of your account.

---

## How many follower growth can I expect?

The growth rate depends on your account's quality and the condition. It usually falls between 10 to 100+ new followers per day if you follow our recommended guidelines. For faster & better growth, instamaster provides account branding, concept-making and contents consulting services.
